Nicole, you can call Francisco Arcaute at 312/886-7613. I think he is there now...this is his office phone but it gets forwarded to his cell in the field.

Good luck and take care!!

Subject: BP spill point of contact

Hi Karen, Judy and John -

I am hoping you can direct me to the staff person at EPA who is managing the BP spill communication. Now that things are settled a bit more I'm hoping to touch base with them to get some additional details.

Can you let me know? Thanks for your team's quick response to the spill - we are glad that you, IDEM and the company were there quickly.

Thanks
